PROFESSIONAL SUMMARY

Diploma in Information Technology graduate (GPA 3.58/4.00) with hands-on Quality Assurance experience through one internship and three academic projects, covering manual functional testing of web and mobile applications. Experienced in preparing test scenarios and test cases based on system requirements, executing positive and negative testing, documenting defects with reproduction steps, conducting retesting and regression testing, and compiling test reports. Experienced in coordinating User Acceptance Testing (UAT) with a client and in mobile testing with Appium; familiar with data validation, SQL, and API testing using Postman through academic practice, with experience collaborating with developers and cross-functional teams. Detail-oriented and analytical, with a willingness to develop further in software testing and quality engineering.

EDUCATION

Diploma in Information Technology (D-III) **Sep 2023 – Aug 2026**

Del Institute of Technology, North Sumatra, Indonesia | GPA: 3.58/4.00

Relevant Coursework: Software Engineering · Software Design · Database Systems · Software Quality and Testing · User Experience Design

EXPERIENCE

Business Analyst Intern **Feb 2026 – Aug 2026**

PT Teknologi Cerdas Berdaulat Indonesia (INaAI), Central Jakarta, Indonesia

- Performed manual functional testing across multiple system modules to verify functionality against system requirements, workflows, and expected behavior.
- Prepared test cases, documented defects, and compiled testing status reports; conducted retesting and regression testing after bug fixes reported by developers to verify corrections and confirm existing functions still worked as expected.
- Reviewed, compared, and validated data from multiple sources against dashboard information to identify discrepancies and verify consistency with business rules, using Microsoft Excel and Google Sheets.
- Prepared defect logs, adjustment summaries, and system adjustment documentation to support issue tracking, fix verification, and follow-up.
- Translated client needs into system requirements and collaborated with cross-functional teams to review system changes, communicate testing findings, and verify implemented adjustments.
- Independently drafted 25+ Minutes of Meeting (MoM) documents and assisted in preparing meeting materials, revising them based on mentor feedback.

PROJECTS

HKBP Toba Region Church Information System (Final Project) **Aug 2025 – Jan 2026**

Role: QA Tester and System Analysis and Design contributor, team of three | Tech: Laravel, PHP, MySQL, JavaScript, GitHub

- Executed 15 of the project's 41 documented test scripts for a multi-role church information system serving three churches, covering Super Admin and Admin login, user management, church data, and congregation records.
- Recorded each test with objective, preconditions, steps, evaluation criteria, and expected versus observed results, including invalid-input cases such as wrong credentials and incomplete forms.
- Tested create, view, edit, and delete functions and role-based flows for Super Admin and church Admin users.
- Took part in requirements gathering through interviews and observation at three churches, and in system analysis and design that served as the basis for the test scenarios.
- Coordinated User Acceptance Testing (UAT) with a church representative on 15 January 2026 together with two teammates; all scenarios were accepted by the client.

Bloom Bouquet Web and Mobile Application **Feb 2025 – Jun 2025**

Role: Software Tester and System Analyst | Tech: Flutter, Laravel API, Figma, MySQL, Appium

- Executed 19 documented test scripts on the customer mobile application, covering product details and search, favorites, shopping cart, order placement, payment method selection, recipient addresses, profile, notifications, and logout.
- Used Appium and Appium Inspector for mobile functional testing and documented each test with objective, preconditions, scenario steps, evaluation criteria, expected versus actual results, and result screenshots.
- Collaborated with developers during sprint-based end-to-end testing and bug-fix coordination in an Agile team.

GKPI Sidikalang Kota Church Website **Feb 2024 – Jun 2024**

Role: Software Quality Assurance and Project Manager, team of four | Tech: PHP, Laravel, MySQL

- Conducted black-box testing covering 23 test items: authentication, congregation data, bulletin, worship schedule, gallery, news, worship leaders, and church administrators.
- Worked from a test plan that maps each test item to its functional requirement for requirement traceability; results were recorded as accepted or rejected per test case.
- As Project Manager, led requirements gathering and co-authored the requirement, design, and technical documents used as references for development and testing.

ORGANIZATIONS AND ACTIVITIES

- **Teaching Assistant, Discrete Mathematics** – facilitated weekly practice sessions for 55 students Jan 2025 – Jun 2025
- **Member, Public Relations, BEM Science and Technology Dept.** – prepared proposals Jan 2025 – Dec 2025
- **Member, Consumption Division, Program Cinta Almamater** – guided 450+ freshmen during orientation Aug 2024

SKILLS

Quality Assurance and Testing: Manual Testing · Functional Testing · Black Box Testing · Regression Testing · Test Case Preparation · Test Script Documentation · Bug and Defect Reporting · Defect Tracking · Retesting · Mobile Test Automation (Appium) · UAT Support · System Validation

Business and System Analysis: Requirements Analysis · Requirements Documentation · Business Analysis · Data Validation · SDLC

Tools and Technologies: SQL · MySQL · Microsoft Excel · Google Sheets · Appium and Appium Inspector · Postman (academic projects) · Trello · GitHub

Professional Skills: Analytical Thinking · Attention to Detail · Problem-Solving · Communication Skills

CERTIFICATIONS

- Software Quality Assurance and Testing – Board Infinity, 2025
- IBM Data Analyst – IBM Skills Network, 2025
- Google Prompting Essentials – Google, 2026
- TOEFL ITP (Score: 517) – The TOEFL Program, 2026

LANGUAGES

Indonesian: Native | English: Intermediate Proficiency (TOEFL ITP score: 517)
